

PROVISIONAL AGENDA

5TH MUFPP ANNUAL GATHERING AND MAYORS SUMMIT + 200 signatories cities

7-8-9 October 2019
MONTPELLIER, FRANCE

The 5th Annual Gathering of the Milan Urban Food Policy Pact will highlight the strong link existing between the 2030 UN Agenda and its 17 Sustainable Development Goals and urban food issues.

Thanks to a holistic vision and a systemic approach to food policy, every aspect will be tackled, from biodiversity to the fight against hunger, from infrastructure to education, from water to climate.

We have 10 years left to achieve these goals!

Mayors and cities representatives are invited to share their experience because it is with local solutions that we will be able to jointly meet global challenges. Political players, experts and researchers, UN agencies, the civil society and other stakeholders will also provide useful insights to contribute in our effort to build urban food policies.

Conclusions from the MUFPP regional meetings will also be presented.

This programme will be updated regularly. Please check back on the [event website](#) or the [MUFPP website](#) to get the most updated version.
